\* EBITDA is calculated as result for the period before income tax expense, interest income, other financial income, interest expenses, other financial expenses and depreciation and amortization.

\*\* The comparative information has been restated due to a discontinued operation (see Note 14).

\*\*\* The Group has elected to present the result after tax of the discontinued operation in a separate amount in the statement of comprehensive income and has disaggregated this separate amount into revenue, expenses and result before tax in Note 14.

## Net Sales

In the first nine months of 2024, Montana Aerospace generated consolidated net sales of EUR 1,086.3 million, resulting in an 18.8% increase compared to EUR 914.8 million in the first three quarters of the previous year. The largest contribution to net sales was made by the Aerostructures segment, which generated EUR 612.0 million, followed by the Energy segment, which contributed EUR 469.4 million. The positive net sales development was driven primarily by organic growth. The loss of net sales through the divestiture of the E-Mobility segment by the end of 2024 needs to be considered. Overall, Montana Aerospace shows a constant order to bill ratio of greater 1.

## EBITDA

After accounting for non-recurring and non-operational items, mainly expenses related to legal fees and management stock option program (MSOP), the adjusted EBITDA reached EUR 118.1 million in the first nine months of 2024, up from EUR 75.6 million in the same period of 2023. This equates to an adjusted EBITDA margin of 10.9%, up from 8.3% in the same period last year.

On an unadjusted basis, the Group's reported EBITDA increased from EUR 70.4 million in the first nine months of 2023 to EUR 113.8 million in 2024, representing a 61.7% growth rate. This is in line with the increase in adjusted EBITDA, which grew by 56.1% compared to the previous period. The increase in EBITDA is primarily attributable to a substantial enhancement in production output, which includes net sales and the change in finished goods (+EUR 188.7 million compared to 9M of 2023). This growth is driven by gains in market share, complemented by the expansion of our workforce to approximately 8,200 employees.

The two adjustments to the reported EBITDA in the nine months of 2024 were the legal costs (EUR 3.3 million) and the expenses related to the management stock option program (MSOP) (EUR 1.0 million), resulting in a total of EUR 4.3 million.

Concerning trade working capital (TWC), we anticipate reaching significantly lower and more sustainable TWC levels across all segments by the end of 2024, in line with our previous guidance. As net sales grew by approximately 19%, trade working capital increased by only around 5%, which we view as a positive indicator of our effective trade working capital management practices.

The financial result remained stable at EUR -38.9 million at the end of 9M 2024 compared to EUR -38.3 million at the end of 9M 2023. We note that the financial result is impacted by various non-cash items, including FX and consolidation, amounting to approximately EUR 15 million in 9M 2024.

yoy growth	+68.1%		+36.0%		-75.0%	

Segment sales and EBITDA in the nine months of 2024 showed Aerostructures and Energy as the main drivers of Montana Aerospace's business expansion. Aerostructures posted growth of +23.0% with total net sales of EUR 612.0 million, while Energy showed growth of +12.3% with total net sales of EUR 469.4 million. The Energy segment achieved an adjusted EBITDA of EUR 25.5 million, an increase of +36.0% compared to the third quarter of 2023, establishing itself as a strong growth business and reflecting the state of the market. Aerostructures also showed a significant improvement of +68.1% compared to the same period of the previous year and achieved an adjusted EBITDA of EUR 94.2 million, despite issues from Spirit AeroSystems and Boeing.

## Operating Result (EBIT)

As a result of the strong EBITDA, the operating result (EBIT) reached EUR 43.7 million as of 30 September 2024, a tremendous improvement compared to EUR -1.8 million EBIT in the first nine months of 2023.

Total depreciation and amortization expenses amounted to EUR 70.1 million in the first nine months of 2024 compared to EUR 72.2 million in the same period of 2023. The small improvement reflects the impact of close monitoring of CAPEX and the postponement of new investments. No adjustments to depreciation and amortization (impairment) were made.

As of 30 September 2024, total assets amounted to EUR 1,925.2 million (31 December 2023: EUR 1,935.5 million), with total non-current assets of EUR 1,001.6 million (31 December 2023: EUR 1,148.1 million). Total non-current assets included mainly intangible assets and goodwill of EUR 304.3 million (31 December 2023: EUR 290.4 million) and property, plant, and equipment of EUR 642.2 million (31 December 2023: EUR 723.0 million). Within the total current assets of EUR 923.6 million (31 December 2023: EUR 787.3 million), inventories amounted to EUR 377.7 million (31 December 2023: EUR 334.4 million), trade receivables to EUR 178.8 million (31 December 2023: EUR 159.3 million), other receivables and assets to EUR 78.3 million (31 December 2023: EUR 83.6 million), and cash and cash equivalents to EUR 116.5 million (31 December 2023: EUR 175.3 million).

Total liabilities were at EUR 1,030.0 million as of 30 September 2024 (31 December 2023: EUR 1,001.1 million), of which EUR 485.9 million are current liabilities (31 December 2023: EUR 452.2 million) and EUR 544.2 million are non-current liabilities (31 December 2023: EUR 548.9 million).

Non-current liabilities include bank loans and borrowings of EUR 296.7 million (31 December 2023: EUR 258.9 million), other financial liabilities of EUR 99.5 million (31 December 2023: EUR 95.1 million) and other liabilities and accruals of EUR 48.9 million (31 December 2023: EUR 85.1 million).

Current liabilities include loans and borrowings of EUR 65.0 million (31 December 2023: EUR 82.3 million) and trade payables of EUR 232.0 million (31 December 2023: EUR 230.4 million).

Total equity decreased to EUR 895.2 million (31 December 2023: EUR 934.4 million) and includes EUR 922.4 million of share premium (31 December 2023: EUR 921.1 million).

At 30 September 2024, Montana Aerospace's trade working capital amounted to EUR 365.72 million compared to EUR 294.7 million as of 31 December 2023.

The main changes in the balance sheet positions are the result of presenting the previously reportable segment "E-mobility" as a disposal group held for sale and is also classified as a discontinued operation (see note 14).

## Supplemental financial information

### USAGE OF ALTERNATIVE PERFORMANCE MEASURES

Montana Aerospace AG is managed in accordance with internally defined financial and non-financial key figures in the interest of achieving a sustainable increase in value. The following key financial figures are used for the purpose of value-oriented management and in the context of the 9M 2024 Interim Report:

- **Organic Growth** refers to increases in net sales (in %) excluding any contributions from acquired companies.
- **EBITDA** refers to operating profit before interest, taxes, depreciation and amortization.
- **Adjusted EBITDA** refers to operating profit before interest, taxes, depreciation and amortization adjusted for one-off effects.
- **Operating Cash Flow** is defined as net cash used / provided in operating activities.
- **Investing Cash Flow** is defined as net cash used / provided in investing activities.
- **Financing Cash Flow** is defined as net cash used / provided in financing activities.
- **Free Cash flow** is defined as the sum of operating cash flow and investing cash flow.
- **CAPEX** (capital expenditures) refers to payments made for purchase of PPE and intangible assets.
- **Equity Ratio** refers to total equity in % of total equity and liabilities.
- **Trade Working Capital** includes trade receivables and inventories less trade payables and advances received from customers.

Due to the Group's dynamic growth, the trend in the number of employees is also an important non-financial indicator.

The notes on pages 18 to 34 are an integral part of these condensed consolidated interim financial statements.

# NOTES

to the condensed consolidated interim financial statements (unaudited)

## 1. Reporting entity

Montana Aerospace AG (“Montana Aerospace” or “the Company”) is a worldwide supplier of structural parts for the aerospace, e-mobility and energy industries and was incorporated on 25 November 2019 in Switzerland with its registered office in Reinach, Switzerland. These condensed consolidated interim financial statements as at and for the nine months ended 30 September 2024 comprise the Company and its subsidiaries (collectively the ‘Group’ and individually ‘Group companies’).

The controlling parent company of Montana Aerospace is Montana Tech Components AG.

## 2. Significant changes in the reporting periods

On 19 August 2024, the Group acquired 53% interest in ALPINE METAL TECH GmbH (“AMT”; see note 7). Consequently, the Group holds 100% interest in AMT as of 30 September 2024.

## 3. Basis of accounting

These interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and should be read in conjunction with the Group’s last annual consolidated financial statements as at and for the year ended 31 December 2023 (“last annual financial statements”). They do not include all of the information required for a complete set of financial statements prepared in accordance with IFRS Accounting Standards. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance since the last annual financial statements.

The accounting policies adopted are consistent with those of the previous financial year (last annual consolidated financial statements of Montana Aerospace as of 31 December 2023). Amendments to IFRS accounting standard that are effective as of 1 January 2024 have no material effect on the Group’s financial statements. The Group’s sales were not subject to seasonal variations during the reporting period.

The consolidated interim financial statements have been prepared under the historical cost convention, unless otherwise indicated. All amounts are in thousands of euros unless otherwise stated.

These interim financial statements were authorised for issue by the Board of Directors on 12. November 2024.

## 4. Use of judgements and estimates

In preparing these interim financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainties were the same as those described in the last annual financial statements of Montana Aerospace.

### 4.1. Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

## 5. Changes in significant accounting policies

The accounting policies applied in these consolidated interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2023.

Amendments which apply for the first time in 2024 are Lease Liability in a Sale and Leaseback – Amendments to IFRS 16 and Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to IAS 1. These amendments had no material impact on the Condensed Interim Financial Statements

## 6. Segment reporting

### 6.1. Basis for segmentation

Operating segments requiring to be reported are determined on the basis of a management approach. Accordingly, external segment reporting reflects the internal organizational and management structure used within the Group as well as internal financial reporting to the chief operating division maker. In the case of Montana Aerospace, the chief operating decision maker is the Board of Montana Aerospace AG.

The reporting is divided into the reportable segments "Aerostructures", "E-mobility" and "Energy". In addition, all other segments as well as unallocated costs are reported separately under "All other segments".

## Aerostructures

The Aerostructures segment is a partner for aircraft manufacturers. The segment develops and manufactures aircraft parts. The Group's product portfolio ranges from structural components for fuselage, wings and landing gear to critical engine components subject to high thermal and mechanical loads, and functional components for the cabin interior.

## E-Mobility

The E-mobility segment manufactures lightweight components for the e-mobility sector. The segment is specialized in the production of components and assemblies, such as crash management systems and battery boxes.

## Energy

The Energy segment produces components for the energy infrastructure. The segment specializes in copper processing and has high-level expertise in copper refinement and insulation systems.

The accounting and measurement policies for the segment reporting are based on the IFRS used in the present consolidated financial statements. The Board of Directors (CODM) uses adjusted EBITDA for management purposes.

The adjustments are made to eliminate non-operational expenses and income not attributed to management performance. The following were incurred during the reporting and comparison period:

(in TEUR)	For the nine months ended 30 September	
	2024	2023
<b>EBITDA as reported</b>	<b>113,754</b>	<b>70,356</b>

## PRODUCTS AND SERVICES

The Group's revenues and trade receivables are split into the following products and services:

(in TEUR)	For the nine months ended 30 September			
	2024		2023	
	Net Sales	Trade receivables	Net Sales	Trade receivables
thereof product sales	1,085,269	174,770	914,706	183,925

<b>Total</b>	<b>1,086,320</b>	<b>178,759</b>	<b>914,751</b>	<b>184,030</b>

## KEY ACCOUNTS

For the nine months ended 30 September 2024 – as for the nine months ended 30 September 2023 – no transactions with a single external customer accounted for 10% or more of the Group sales.

## 7. Significant changes to the scope of consolidation

### 7.1. AMT

On 19 August 2024, the Group acquired 53% interest in ALPINE METAL TECH GmbH ("AMT"). Consequently, the Group holds 100% interest in AMT as of 30 September 2024.

The fair values of the identified net assets have been determined on a provisional basis. The preliminary figures are summarized as follows:

#### 7.1.1. Consideration transferred (preliminary)

(IN TEUR)	Total
Cash and cash equivalents	14,300
Vendor loan settlement	15,700
<b>TOTAL CONSIDERATION TRANSFERRED</b>	<b>30,000</b>

#### 7.1.2. Costs associated with the business combination (preliminary)

In the condensed consolidated financial statements for the current fiscal year 2024, costs of TEUR 9 were incurred in connection with the business combination. These costs were recognized in other operating expenses.

### 7.1.3. Identifiable assets acquired and liabilities assumed (preliminary)

The amounts recognized for the main groups of assets acquired and liabilities assumed at the acquisition date are summarized below:

(IN TEUR)	Total
Intangible assets	6,394
Property, plant and equipment	17,864
Financial Assets	264
Other non-current assets	3,519
Inventories	40,805
Trade receivables	21,122
Other current receivables	2,330
Cash and cash equivalents	15,736
Non-current financial liabilities	-33,093
Other non-current liabilities	-4,937
Current financial liabilities	-2,000
Other current liabilities	-33,929
<b>TOTAL IDENTIFIABLE NET ASSETS ACQUIRED</b>	<b>34,075</b>

### 7.1.4. Goodwill (preliminary)

The goodwill resulting from the acquisition was recognized as follows:

(IN TEUR)	Total
Total consideration transferred	30,000
Fair value of pre-existing interest	26,604
Fair value of identifiable net assets acquired	-34,075
<b>GOODWILL</b>	<b>22,529</b>

Goodwill results primarily from the synergies arising from AMT's product portfolio and Montana Aerospace's material competence, which will accelerate growth and reinforce the Group's standing as a strong and diversified industrial company.

The resulting goodwill is not expected to be deductible for tax purposes.

#### 7.1.5. Contributions to revenue and financial results

The company acquired contributed revenue of TEUR 6,361 and a loss for the period of TEUR 310 to the Group's results for the period to 30 September 2024. If the acquisition had occurred on 1 January 2024, management estimates that revenue would have been EUR 83 million, and profit for the year would have been EUR 3 million.

#### 7.1.6. Cashflow (preliminary)

(IN TEUR)	Total
Cash	14,300
Less acquired cash	-15,736
<b>TOTAL CASH OUTFLOW (+), CASH INFLOW (-)</b>	<b>-1,436</b>

## 8. Financial instruments – fair values and risk management

### Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Fair values for trade and other receivables, trade and other payables, bank loans and borrowings and loan liabilities from affiliated companies are not included in the table below. Their carrying amount is a reasonable approximation of fair value. Bank loans and borrowings are mainly bearing variable interest rates.

The put options granted to non-controlling shareholders that are presented in other financial liabilities are categorised as Level 3 within the fair value hierarchy.

## 9. Disposal group held for sale

### 9.1. E-mobility

In June 2024, management committed to a plan to sell the E-mobility segment. Accordingly, this previously reportable segment "E-mobility" is presented as a disposal group held for sale and is also classified as a discontinued operation (see note 14.1.). The sale was completed on November 12, 2024 (see note 17).

### 9.2. Impairment losses relating to the disposal group

Impairment losses of TEUR 24,992 for write-downs of the disposal group to the lower of its carrying amount and its fair value less costs to sell have been included in "result from discontinued operation, net of tax" in the consolidated statement of profit or loss. The impairment losses have been applied to reduce the carrying amount of intangible assets and goodwill as well as property, plant and equipment within the disposal group.

No further events took place between 30 September 2024 and 12 November 2024 that would require adjustments to the carrying amounts of the assets or liabilities in these condensed consolidated interim financial statements or would need to be disclosed here.

# THE MONTANA AEROSPACE EQUITY STORY

## Boosting structural change and the energy transition

Montana Aerospace offers shareholders an investment opportunity in high-growth niche and promising markets. We pursue a clear goal with our worldwide highly integrated manufacturing operations: to play an active role in shaping the far-reaching structural changes in the aerospace and E-Mobility industries as well as in the energy transition. At the same time, we also aim to improve our ecological performance by making a positive contribution to climate change mitigation. As a full-service provider with a global local-to-local strategy and ~8,200 highly-skilled employees at 23 locations worldwide, we are ideally positioned to serve our customers by providing forward-looking solutions.

## Reasons to invest in Montana Aerospace

### a. We create shareholder value

Our strategic focus on growth, EBITDA margins and free cash flows aims to increase value for our shareholders. To achieve this goal, we concentrate on the following core areas.

#### **Positioning ourselves with the times**

Over the long term, population growth and increasing prosperity will raise demand for energy and the need for sustainable mobility concepts both in the air and on the ground. Montana Aerospace's scalable business model supports the goal to increase its market shares in Europe, the US and the APAC region while strengthening its positioning as a technology leader in the megatrends.

#### **Organic growth and inorganic growth**

With long-term capital spending of more than EUR 720 million (CAPEX) from 2018 to 2023, most of which was invested in the expansion of capacities and know-how, we improved growth in a rapidly changing supplier environment. In recent years, Montana Aerospace has established a reputation as a buy-and-build partner of choice for well-known OEMs and tier-1 suppliers. This has led to a significant increase in sales based on long-term customer contracts (contracted sales).

#### **Operational excellence**

Our focus is on the continuous development and implementation of measures to achieve best-in-class efficiencies in all core processes of our value chain. Continually improving performance creates added value for our customers, increases our competitive advantage and enhances the motivation and team spirit of our employees.

## b. Clear commitment to ESG goals

Montana Aerospace's business model is based on a commitment to the sustainable mitigation of environmental impacts. This commitment and the integration of ESG criteria into the company's philosophy is a key element of our strategy and long-term success. At Montana Aerospace, we focus on three sustainability priorities:

- a. Reduce our CO<sub>2</sub> emissions by expanding the vertical integration of our value chain
- b. Promote the circular economy by implementing in-house recycling processes
- c. Establish sustainable, long-term working relationships with our employees and partners.

## c. Strong positioning on the market

### **Vertical integration = high value creation**

Montana Aerospace is a highly vertically integrated supplier of aerostructures with a solid best-cost country footprint, multi-material expertise in aluminum, titanium, composites, copper and steel. We are a leader in innovative product design, supported by our proprietary intellectual property solutions.

### **Key partner for customers**

Montana Aerospace's market proximity, which is based on its local-to-local manufacturing and service strategy, and its solid best-cost country footprint, ensures strong long-term relationships with blue chip customers from the aerospace, E-Mobility and energy sectors.

### **Resilience through diversification**

As an industry group with a leading market position and strong brands, we specialize in the key technologies of three promising markets. With our strong industrial base with 23 locations and efficient overhead structures, we achieve optimal market coverage in the aerospace, E-Mobility and energy industry. Diversification is carefully selected to strengthen our business model and helps balance the divergent business cycles. This resilience was successfully demonstrated during the pandemic by our highly engaged employees.
